- Excellent class and excellent instructor. Thank you, Professor!
- I was an Honor taking this course with Professor Salton. I learned a lot from you Sir.
- Prof. Salton is one of the most organized prof I have encountered. Keep it up prof! It was a nice semester with you!
- Prof. Salton please take high level courses next semester.
- Thank you for teaching us this course. I think you have taught us how to think critically. I like the way you gave prompt and essay because it is not about memorizing. I hope to take your class more in the future.
- Simply want to say that he is one of the best instructor
- Dear professor, It was great being in your class. I hope you continue to offer new and exciting courses for us to take, specially UNSC. Thank you!
- It was really a great experience taking a course by Professor Herman. Previously, I had heard that he is an excellent instructor and I must say that I have not been disappointed.
- Overall he was a wonderful Prof who was very inspiring and had his own way of teachings and explaining a certain topic. I do plan to take more courses with him even though I do not have his courses related to my intended major. I prefer more teachers like him in AUW.
- Professor Salton is an amazing professor. His experience and knowledge make him more amazing. We hope, in AUW we will have more professors like him. Before taking this course, I was completely ignorant of internaal politics and ethics. Reading the course readings and doing his classes, I have learnt so much about not only politics but also how we should face challenges in the real world. I like his final exam. It is very helpful for us to research in the topics. The way he showed videos in classes, helped a lot to understand the topic. Stay amazing professor!
- I really liked the course very much. I think, the in class essay writing was a bit different.It was different but I think this can be changed and this might turn out something helpful. Just in the last class we got to know that office hours visits are a part of grade , which seemed unfair to me. We should have been told this before .Specially, people who are shy to communicate, its hard to pull their grade up. Apart from this two cases, I loved the course. Professor Salton is an amazing instructor. He should stay as the faculty for the betterment of the students and also for the institution.
- over all excellent job by our professor. I have learned a lot in this class and improve my critical thinking.
- The instructor is very fair and is really organized and prepared for class. I really like the instructor, this course was interesting, but the instructor is a tough grader.
