- I love the way Professor Salton provides feedback, it is very helpful!
- Thank you, Prof.
- He is an excellent professor.
- Thank you professor. It was great learning semester.
- He is an excellent professor.
- I think he is a great instructor. In future, we can do more group discussions or presentations for better understanding.
- You have been a wonderful Professor, and thank you for teaching us this course.
- Thank you Professor, you are so cool!
- I think this course was designed very well. Looking forward to take more like these courses
- over all our instructor is an excellent teacher
- Dear Professor, Thank you for your nice class. I am very satisfied the way you are teaching and organized. Thank you so much
- None
- Overall the class and the professor was very good. And the topics we covered in the class were interesting and difficult at the same time. By taking this course, I am encouraged to think about the topics we discussed in the class more critically. Thank you Professor!
- I had a great time in this course with Prof. Salton he is a great resource for AUW. He knows so much! Sometimes I feel like he is a human version of Google (Scholar)! Because of course the information he provides in class are credible . I learnt a lot from this course. I want to thank him for his hard work. He always provided timely good feedback. But it would be great if the theories are made more clear.
- It was a wonderful course and could learn lots of important subjects, which is really important.
- Besides other, seeing Professor and TA will help students in case you gaining good grade in participation–this might not be a good adding. Because some students prefer to see directly the professor and do not like to see TA and some students are opposite. So, I guess seeing either one should be considered. Other than that, the instructor and the course both are very very appreciable.

- He is a good teacher and knows very well how to teach the course. Overall, good job.
- I want take more courses with this instructor. He encouraged students to think their own thought more deeply than others do.
