- I have been learn a lot from this instructor. It had been a great time with my classmates and instructor who inspired me to lean more about the course. I want to take another course from this instructor.
- the topic is hard and complicated. and the book is really really hard
- I wish to take more of the instructor class.
- Prof. Salton is awesome in every respects I like you the most as you are my favorate teacher. I am glad taking this course. I have learned from you a lot. Thanks Prof. you are awesome.
- The best class so far. Please have a class in the afternoon, my other class clashes with the one in the morning for the fall semester and I REALLY REALLY want to take professor Salton's course. This would be a great help for me. Thank you.
- Professor Salton is an excellent instructor! Such an intellectual person. Thank you so much, Professor!
- prof is very organized and he explains each topic very clearly. he is also very quick in returning our papers and he provides very valuable comments
- The instructor was really organized and provided timely feedback regarding assignments. Also invoked great deal of enthusiasm among students.
- YOU ROCK!!!!!!
- The only negative aspect of the professor is that he does not explain the contents of the class for the day in class. He gives homework and does not explain it. The book was too hard so he should have spent more time explaining.
- Prof. Salton is an excellent professor. He is always well organized and well planned with the course syllabus. He always respects student's comments and answers in the class. Overall, I must say that he an excellent professor.
- Professor, you were awesome! :D All the best for your future endeavors. I hope I'll get to take more classes with you in the future (with a heavy optimism that you will not be leaving AUW until I graduate in 2018).
- This class had been a very good one about acquiring knowing of the happenings of genocides around the world. A lot of knowledge had been gained from the class. The professor is kind and also provides very good answers to our questions.
- The class gave me a platform to learn even the genocides have some moralities in it. The instructor was great and was very helpful in making students understand about topics. It was an awesome class.
- Professor Salton is very dedicated, serious and sincere.
