- He is really a excellent teacher who helped us a lot to know about world politics and i think he match the standards that AUW requires for the teachers
- The instructor is best in balancing the ideal world and real world, which I have been rarely noticed in other Politics of profssors.

- NO more comments. He is an execllent professor! except for the simulation part, I don't think that is a good assesment for every student
- The professor explained all course materials and topics very well and gave very effective feedback on all the assignments. This course was very informative and interesting and so were the assignments in this course. Overall, I would rate the professor as EXCELLENT!!
- Overall the Professor is truely great!!! His course helped ,e to undersatnd some important terms of politics that I had confusion about. He helps students and support them always. He is an ideal professor.
- I suggest that the professor make the students who talk less talk more and students who talk more to talk less. Based on this, the grading of students should not depend on how much a student get chance to talk and participate. Else, he is a great teacher and the course is a wonderful and FUN course to take. I have learned a lot.
